## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over "Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change and Amendment No. 1 to the Proposed Rule Change by National Association of Securities Dealers, Inc. Relating to Locked and Crossed Markets that Occur at or Prior to the Market's Open" Federal Register XP002171937 (hereafter "Fed. Reg.") in view of Wall Street Letter. Fed. Reg. discloses a method of handling quotes that would lock or cross an electronic market comprising the steps of determining whether a quote will lock or

Art Unit: 3627

cross the market at the opening of the market and routing an order to the market participant whose quote was locked or crossed, and executing the order against the quote at the side of the market that was locked or crossed (p. 31336 columns 2-3). If the order is not filled, the order is re-formatted as a displayable quote.

Fed. Reg. does not disclose the step of formatting the quote as a market liability order. However, Fed. Reg. discloses the step of placing an order if a market participant locks or crosses the market. Wall Street Letter teaches that formatting quotes as liability orders is common in the art (second paragraph). It therefore would have been obvious to one of ordinary skill in the art at the time the invention was made to perform the step of formatting the quote as a market liability order in order to perform the step of placing the order.

Fed. Reg. also fails to disclose a process to determine if the order was filled by execution. However, Fed. Reg. requires the order to be filled within 30 seconds. It would have been obvious to one of ordinary skill in the art at the time the invention was made to employ a process to determine if the order was filled by execution in order to meet the requirements of Fed. Reg.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new ground(s) of rejection.
